Investment in the funds are subject to certain risks, including but not limited to:

Risks	Description	Risk Management
Market Risk	Market risk arises when the value of the securities fluctuate in response to the general market and economic conditions.	The market risk is managed through portfolio diversification and asset allocation whereby the securities exposure will be reduced in the event of anticipated weakness in the market.
Fund Management Risk	The selection of securities which make up the investments of the funds is subjective and the securities selected may perform better or worse than overall market.	This risk is managed by having a professional and experienced investment manager.
Credit Risk	Credit risk is the risk of loss due to the inability or unwillingness of a counter-party to meet the payment obligations of principal and/or interest.	The Fund Manager manages the credit risk by imposing counter-party limits at fund level as well as assessing the credibility of the counter party and its ratings.
Liquidity Risk	Liquidity risk includes both the risk that assets may not be realized at their fair value in a short period of time, and the risk that the Company may not have access to sufficient liquid assets to meet its cash outgo obligations.	The risk is managed by monitoring the projected and actual cash inflows and outflows and by ensuring that a reasonable amount of financial assets are kept in liquid instruments at all times.
Operational Risk	This risk is attributed to failures in the operation of the Company due to fraud, inadequate monitoring systems, legal matters, management failure, defective controls, and human errors. This risk is not directly related to market risk, credit risk or liquidity risk.	The risk is managed by having adequate internal controls which would include (list not exhaustive) well documented work processes, investment policies, proper segregation of duties, competent personnel assigned to the work, regular checks, monitoring and reporting etc.

Exceptional Circumstances

AXA AFFIN Life Insurance Berhad ("the Company") may take the following actions that may become necessary due to change in circumstances:

- 1) The Company have the right at any time to close any investment fund or to transfer the assets to a new investment fund which has similar investment objectives. The Company will give you at least 90 days' written notice of the Company's intention to close an investment fund (or such shorter period as agreed by the regulator). The Company will cease to allow creation or cancellation of units in the closing investment fund after its closure;
- 2) Change the name of any investment fund;
- 3) The Company may designate classes of units that are available under the policy and change the designations. The Company may also subdivide or consolidate such units or classes of units;
- 4) The Company will give you at least 90 days' written notice of the Company's intention to change the investment policy of each of the investment funds provided approval of the regulator is first secured and such approval process is on file with the regulator;
- 5) The Company may suspend pricing of unit and policy transactions if any of the exchanges in which any investment fund is invested is temporarily suspended for trading.
The Company may at its absolute discretion for whatever reason, including for example as a result of the closure of or suspension of dealings on a principal stock exchange, suspension of valuation of or dealings in an underlying fund of an investment fund, during any period when assets in an investment fund cannot be valued or invested in accordance with its investment objective or sold, at any time temporarily suspend or defer the valuation, creation or cancellation of units of the investment fund.
The Company may also at its absolute discretion limit the number of units of an investment fund to be cancelled on any valuation day to 10% of the aggregate number of units of the investment fund on the valuation day. In such case, units of the investment fund allocated to the policy will be cancelled on a pro rata basis. Units that have not been cancelled will be carried forward for cancellation, subject to the same limitation, on the next valuation day of the investment fund;
- 6) To defer the switching or withdrawal of units and the surrender of the policy for a period not exceeding 6 months from the date of application, for example, but not limited to, when there is an unusually high volume of sale of investments within a short period; and
- 7) Make the changes that may be required due to legislative and regulatory requirements.

Important Notes

AXA AFFIN Life Insurance Berhad believes it is important that you fully appreciate and understand all the benefits and charges under your plan.

1. The fund fact sheets should be read together with the product brochures.
2. You should ask for and study the sales illustration pertaining to your policy, paying particular attention to non-guaranteed benefits.
3. The investment performance of the funds are not guaranteed and the investment risks under the policy will be borne solely by you.
4. It is important to select a combination of funds that suit your financial goals and risk profile.
5. Past performance of the funds is not an indication of its future performance.
6. This investment-linked insurance plan itself is not classified as a Shariah-compliant product.
7. This fund fact sheet is valid until April 2019.
