Fund Strategy

The strategy for Shariah compliant investments in local Sukuk would be driven by the interest rate outlook for the market over the medium to long-term horizon. This will enable the Fund Manager to decide on the maturity structure for the investments of the fund. Additionally, the Fund Manager will constantly seek potential credit upgrade issues and avoid potential downgrade issues to maximise returns for unit holders.

Note that, although the fund invests in Shariah-approved securities, the investment-linked insurance plan itself is not classified as a Shariah-compliant product.
